TO: Minerals File

FROM: Tom Munson, Senior Reclamation Specialist 

RE: Site Inspection, J & J Building Supply, Pumice Project, S/001/029, Beaver County, Utah

Date of Inspection: June 20, 2001  
Time of Inspection: 1:30 p.m.  
Conditions: Sunny, hot  
Participants: Tom Munson, DOGM

Purpose of Inspection: To inspect the site per operator request for file closure

I inspected this site per the operator request to close the file. The site looks great, the vegetation looks great on a majority of the area. There are a few sparse areas, but I don't think there can be much change because of the pumice being so white and the slopes being so steep.

Photos were taken of the site. I recommend this site be released and the file closed.
